RISK MANAGEMENT USING CROP INSURANCE MAKES GOOD SENSE

CROP HAIL INSURANCE

The devastation left in the wake of a hail storm can be total or partial... But it's always expensive, and all of the good farming practices in the world won't prevent it. Crop Hail insurance gives you acre-by-acre protection that can be as much as the actual cash value of your crop, thereby **protecting your investment and your future.**

CROP HAIL FLEXIBILITY

Your ProAg Agent will work with you to design Crop Hail coverage to fit your risk management strategy. Flexible deductibles allow you to tailor the cost of your Crop Hail Policy to meet your budget.

Your Crop Hail Policy may provide optional coverage for perils other than hail. In many areas, basic hail coverage may be enhanced by—

- fire and lightning
- transit
- reimbursement of replanting costs
- wind
- vandalism and
- stored grain coverage

Your ProAg agent will assist you in exploring these and other optional coverages.

Which Insurance Plan is Right for You?

Crop insurance is available in a variety of forms and not all plans of insurance are available everywhere or for every crop. Contact your professional ProAg Crop Insurance Agent for assistance in comparing the numerous risk management options available to you and your unique operation.

THE PAST, PRESENT AND FUTURE OF AGRICULTURAL RISK MANAGEMENTSM

ProAg has been servicing American farmers for nearly a century. When Jess Latham, Sr., founder of ProAg, started his journey in the 1920s, he conducted business with a smile and made deals with merely a handshake. Today, ProAg operates under the same principles of integrity and loyalty. With an unparalleled team of crop insurance professionals eager to make your road a little less bumpy, ProAg stands ready to offer superior risk management services and expertise.
